

## 210 micron Roll Up Film - Aqueous

+44 (0)1252 624411

[www.landoruk.com](http://www.landoruk.com)

### Features

- ❖ Excellent colour brilliance due to specialised matt coating with Pigmented or Dye based inks.
- ❖ Selected lay flat film for reduced curl compared to some Polyester films (less curl memory).
- ❖ Scratch and water resistance when dry. Lamination recommended, possible without.
- ❖ 210 micron for ease of use and excellent hanging characteristics.
- ❖ High opacity with silver backing to reduce show through.
- ❖ No PVC, environmentally friendly, less disposal issues.

---

### Technical Data

- ❖ 210 micron Thickness/Calliper.
- ❖ 170 gsm Weight.

---

### Availability

- ❖ 914mm, 1067mm x 30m. 1524 x 30m on special request. Single roll box.
- ❖ All rolls on 2" core.

The above mentioned data is true at time of creation, however due to the developing nature of the components, suitability must be checked on printers before commencing the planned application. We assume no liability or consequential loss. March 2011
